

THE BSDCQ HEALTH STRATEGY

GOAL: To maintain and improve upon the health status of the Belgian Shepherd Dog (BSD) within Queensland, Australia.

OBJECTIVES:

1. To lead the direction for health improvement of the BSD within Queensland
2. To preserve current knowledge of the health status of the BSD within Queensland
3. To engage with, and support BSDCQ breeders and owners with the implementation of any required health plans
4. To develop, Implement and review plans for the health improvement of the BSD

ACTIONS:

1. To adhere to the BSDCQ Health Strategy Policy and Procedure
2. To appoint a volunteer BSD Health Coordinator on a biennial basis
3. To promote the Health of the BSD Position Statement and its accompanying rationale
4. To undertake BSD Health Surveys as required
5. To develop BSD Health Plans as required
6. To evaluate the outcomes of any current BSD Health Plans
7. To provide ongoing community education using a variety of mediums about the BSD, its health status and priorities, and how the BSDCQ is tackling health improvement overall
8. To regularly review the BSDCQ Health Strategy
