## [EXAMPLES OF EXCELLENT NON 3 CLEAR GENERATION BELGIAN SHEPHERD DOGS]

This document contains pedigrees and photos of a handful of Belgian Shepherds from 3 of the 4 varieties of Belgian Shepherds to demonstrate that dogs do not have to be 3 generations clear to have excellent type, temperament and health. Each of these dogs came from an Intervariety Breeding in accordance with the FCI Breeding Recommendations. Each of these dogs also has a pedigree that is not 3 generations clear on each side. Each of these dogs has excelled at their chosen disciplines and several have either won or produced winners of Best In Specialty Show and Reserve In Specialty Shows. They are evidence as to the superior qualities that can be achieved by breeders wisely utilizing the entire gene pool available to them. Photos from BSDCQ files, internet downloads and private collections.
