Critique:

Entire male with a happy disposition and well presented. Full dentition Scissor bite. Excellent expression. Excellent head with a good stop. Well split mouth. Dark almond shaped eyes. Tall well set ears. Good length of neck. Balanced angulations. Slightly long in hock. Croup a little steep. Would prefer a shorter body. Good wither. Tail could be longer, carried high on move. Toes out a little in rear, over reaches on the move.

Overall this is a very nice style of dog with an excellent character. He is a little erratic on the move – should settle with age and experience.

Critique:

Entire male with a calm attitude in the ring. Well presented. Full dentition, level bite. Excellent expression. Nice Stop. Slightly roman nose. Eyes could be darker, excellent shape. Tall ears well set. Could have more neck. Moderate but balanced angulations front and rear. Would like to see more turn of stifle. Level topline with good wither. A little steep in croup. Very good feet. Tail could be longer, carries high on the move. Excellent side movement – toes in a little in front. Nice movement going.

Excellent dog with calm temperament and well presented. Nice ground covering gait with square construction.

Critique:

Lovely happy temperament well presented. Full dentition scissor bite. Well chiselled head, skull slightly recessive although still young. Minimal stop. Dark expressive well shaped eyes. Tall well set ears. Nice reach of neck. Moderate front angulation, well angulated in rear. Well let down hock with excellent turn of stifle. Excellent Croup. A little long in loin. Excellent topline and wither. Correct length of tail well carried and set. Moves well when behaving – will come with age and training. Very typical young female of excellent character. A little long in loin however I love her overall silhouette.

Grading: Excellent

Critique:

Excellent character and presentation. Full dentition, scissor bite. Nice head overall, well chiselled. Minimal stop. Mouth well split. Eyes excellent almond shape. Ears slightly broad at base but well set and small. Would like a little more neck. Excellent balanced front and rear angulation, well let down hock and excellent turn of stifle. Maintains her excellent topline on the move. Would like to see a little more leg. Well set tail of good length. Good feet. Nice movement only slightly ruined by high stepping in front. Front movement improves when moved out faster. Excellent coat with good undercoat. Excellent breed type and character. I forgive her her small indiscretions!

Critique:

*Calm and friendly disposition, well presented. Full dentition scissor bite. Head excellent overall shape and expression. Top skull slightly rounded. Excellent moderate stop. Excellent dark eyes of good shape. Would like better split of mouth. Tall ears well carried. Slightly short in upper arm, very good hind angulation. Hock well let down with moderate turn of stifle. Croup slightly steep. A little long in body. Would like topline to be firmer. Could do with a little more depth of chest. Tail could be longer – well set. Excellent side movement – covers ground well. A little loose in front. Moves better when settled. Has lost undercoat.
Nice tall bitch with very good breed type. Out of coat today. Excellent head and character.*

Friendly temperament well presented. Full dentition, scissor bite. Slightly concave planes. Nice chiselling. Minimal stop. Muzzle could be stronger with more underjaw. Dark almond shaped eyes. Mouth could be wider split. Excellent small high set ears. Good neck. Could have a little more overall substance. Level top-line – maintains on the move. Very square construction. Prominent wither. Steep croup. Very short upper arm. A little over angulated in rear. Well let down hock. Excellent turn of stifle. Excellent length and set of tail. Excellent side and away movement, toes in slightly coming. Excellent breed type. Very square. Excellent silhouette. Typical Belgian movement. This bitch has her faults, but they get lost in the overall picture.

Excellent temperament. Well presented although losing coat on the day. Full dentition scissor bite. Skull slightly round and recessive. Moderate stop. Nice strength of muzzle and underjaw. Mask paling due to coat loss. Eyes of correct shape but would prefer a little darker. Ears of good size and set well, when he uses them. Nice length of neck. Short in upper arm. Balanced angulations front and rear but would prefer more. Nice turn of stifle. Excellent topline on the stack, but loses on the move. Excellent square construction with prominent wither. Correct croup. Chest could be deeper. Excellent cat like feet and up on his toes. Correct length of tail. Excellent ground covering gait. Sufficient charbonage. Male of excellent type and character.
